SAWAKET

ABOUT US

SAWAKET (STC) was established in Doha, Qatar with the aim of targeting the rapidly growing market of Internet of Things (IOT) for lighting and smart home business. With over 13 years of experience in the market, **STC** has established itself as a leader in providing innovative and cutting-edge solutions for smart homes and lighting systems. Our team of experts is dedicated to staying ahead of the curve and constantly researching and developing new technologies to meet the ever-evolving needs of our customers.

We understand the importance of creating a seamless and integrated experience for homeowners, and our products and services are designed to do just that. From smart lighting systems that can be controlled remotely through a mobile app, to home automation systems that can be customized to fit the unique needs of each household, **STC** offers a wide range of solutions to make homes smarter, more efficient, and more convenient.

Our commitment to quality and customer satisfaction is evident in everything we do, from the initial consultation and design stage to the installation and maintenance of our products. We believe in building long-lasting relationships with our clients and strive to exceed their expectations in every project we undertake. With the rise of IOT and the increasing demand for smart home solutions, **STC** is well-positioned to continue its growth and success in the market.

SAWAKET

WE ARE SPECIALIZED

At STC, we pride ourselves on being experts in the design and installation of Smart Home, ELV (Extra Low Voltage), and Lighting systems for various types of projects. Our team is highly specialized and experienced in creating customized solutions for residential, hotel, private, and even governmental projects. We understand the importance of having a well-designed and efficient system in place, especially in today's fast-paced world where technology plays a crucial role in our daily lives. That is why we work closely with our clients to understand their specific needs and requirements, and then use our expertise to design a system that is tailored to their unique needs.

Our Smart Home systems are designed to enhance the comfort, convenience, and security of our clients' homes. We utilize the latest technology to create a fully integrated system that allows homeowners to control various aspects of their home, such as lighting, heating and cooling, entertainment systems, and security, all from a single device. This not only adds convenience but also helps reduce energy consumption and lowers utility bills.

EXPERIENCE

STC, a leading provider of technology solutions in the Middle East, has successfully completed a wide range of installations in Qatar. These installations span across various sectors including residential, hotel, private, and government buildings. With a strong focus on innovation and quality, STC has established itself as a trusted partner for technology solutions in the country.
